

# Twist Tiller

The extra-wide high leverage handle and weight-centering middle step plate of the Twist Tiller drives six steel claw spikes deep into the groundbreaking up the hard compacted top layer of soil. This allows for easy weeding and planting and promotes the free flow of water, air.

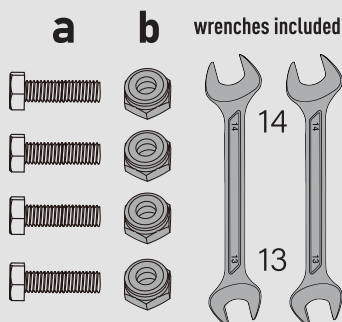

Loose, turns, tills, and aerates soil promoting the free flow of water, air, and fertilizer for a healthier and more beautiful yard and garden.

Perfect size for raised beds, flower boxes, around shrubs or bushes, and other hard-to-reach areas. Ideal for mixing fertilizer or peat moss amendments and preparing a bed for planting. Makes weeding easy.

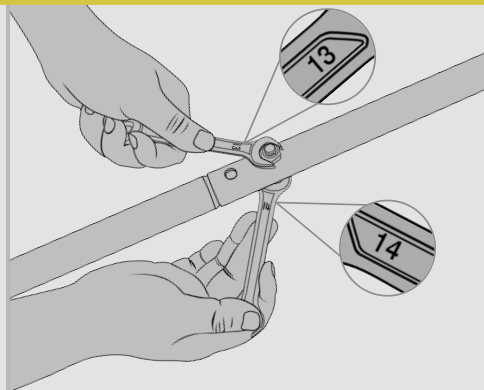

## TOOLS REQUIRED FOR ASSEMBLY - 2 wrenches(included)

### FIXINGS&COMPONENTS

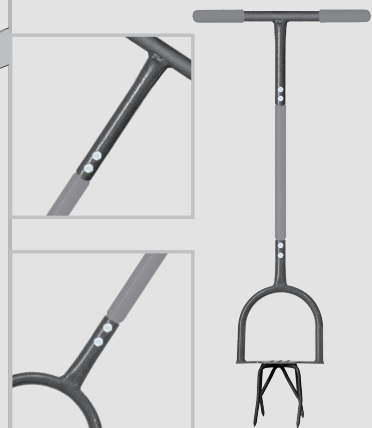

- a. Screw(4pcs needed)
- b. Lock Nut(4pcs needed)

STEP 1: Get tools  
& components prepared.

STEP 2: Please tighten the lock nut  
(b) with the wrench(13). During tightening,  
please make sure the screw  
(a) stay fixed by using the other wrench(14).

STEP 3: Repeat the second step  
until complete assembly.

### Twist Tiller

Cultivate soil efficiently  
Ideal size for raised bed &  
flower box

### CARE

Install as instructed to tighten screws.  
Clean the claw tines after each use.  
Oil the tines lightly as needed.  
Store in a clean and dry area.

### WARNING
